FUCHSIAS

Due to the great interest aroused in Fuchsias within the past few years, we take pleasure in presenting this list of varieties on which we have spent the past year in propagation. Many of these are new importations from England, brought here early in 1931. This entire list has been carefully watched for duplication of names, and we feel that the following are of all different varieties, except where so marked. The names used are those in most general use, although many varieties are known by many names in different sections.

Fuchsias love the shade and moisture and for this reason are well adapted for planting on the shady side of buildings where they give a wealth of bloom. They respond to a rich soil, and the application of well rotted manure is advocated. They will not stand an outside temperature below 20 degrees.

The American Fuchsia Society, organized by many lovers of Fuchsias several years ago, has grown in membership to a large organization and sends out literature at intervals relating to Fuchsias. Those wishing to avail themselves of this membership, at a cost of \$1.00 per year, may send their application direct to the Society at 1025 Second Avenue, Oakland, California or may send to the nursery and we will enroll you as a member.

Prices of the plants below

6 to 8 inches high 25c ea., 8 to 12 inches high 35c ea., 1 to 1½ ft. high 50c ea. and 1½ to 2 ft. high 75c ea. Dozen rate is 10 times the single price.

FUCHSIA SPECIES

Arborescens (*Syringaeflora*) Erect terminal panicles of small lilac scented flowers of pinkish lilac color.

Boliviana—Clusters of long thin flowers of coral red.

Braziliensis—

Cordifolia—Tall upright shrub, very short corolla of yellowish white shaded red, deep pink to light scarlet tube with short sepals tipped green.

Corymbiflora—Corymbs of deep red flowers.

Corymbiflora Alba—Long thin white tube with small deep red corolla.

Fulgens—Long tube of orange pink with green sepals. Corolla short orange red.

Globosa—Short purple corolla with brilliant scarlet sepals.

Lycioides—Tall upright shrub with medium small rosy mauve flowers, tube and sepals crimson, medium small leaves.

-
- Procumbens**—A trailing variety with tiny leaves and a short orange tube with reflexed purple sepals, no corolla. Blue stamens.
- Riccartoni**—Small narrow flowers with rosy purple corolla and scarlet sepals.
- Serratifolia**—Long tube white tinted carmine shading to green at upper part of sepals. Deep orange pink corolla shading to carmine base.
- Thymifolia**—Minute flowers with tiny crimson sepals and petals. Tube of lighter shade. Prominent white stamens.

SINGLE FLOWERED FUCHSIAS

- Annie Earle**—Deep pink shaded orange corolla, tube and sepals waxy white very lightly shaded pink.
- Aurora Borealis**—Bright orange red short corolla, narrow pointed sepals of soft pink tipped green.
- Aurora Superba** (new importation)—Sepals and tube light orange, corolla of deeper shade. Long flowers.
- Autumnale**—Highly colored foliage of bronze and orange, flowers salmon and scarlet.
- Baby**—Phlox purple corolla and scarlet sepals. Small flowered.
- Balkon** (new importation)—Trailing habit, deep pink corolla, tube flesh colored, sepals green tipped, deep pink shaded to white base.
- Ballet Girl**—
- Brutus** (new importation)—Rich dark purple corolla with carmine base, rich scarlet sepals. Bushy plant.
- Caledonia**—Dwarf trailing with long thin light red tube and sepals, carmine corolla. Light green foliage.
- Carmencita**—Semi-double white with carmine veins, the outer row of petals suppressed, bright scarlet sepals.
- Carnea** (new importation)—Very short mauve purple corolla shaded carmine at base, long pointed bright scarlet sepals. Distinct.
- Coccinea Florean** (new importation) — Long violet purple corolla shaded carmine at base, long pointed bright scarlet sepals. Distinct.
- Countess of Aberdeen** (new importation) — Small flower with pale pink corolla, white tube and sepals.
- Covent Garden** (new importation) — Long flowers with pink corolla and white tube and sepals.
- Cupid** (new importation) — Deep blue pink corolla, deep pink sepals.
- Daniel Lambert** (new importation) — Blue corolla shaded pink, rose pink tube and sepals.
-

-
- Dr. Brooks** — Rich dark blue corolla with crimson sepals.
- Duchess of Albany** (new importation)—Sepals and tube white tinted pink, red corolla.
- Durango (Red Cup)**—Single cup shaded corolla of deep crimson red faintly suffused with purple. Brilliant scarlet sepals. A very distinct variety.
- Elysee**—Rose pink and white, small flowered.
- Ernest Renain**—Rich rose pink shading lighter at base, inflated tube and sepals waxy white.
- Evelyn Little**—Medium sized flower with rose pink petals marked with lavender blue. Sepals deep pink.
- Graffe Witte**—Rather small flower with purple corolla shading rosy mauve and light scarlet sepals.
- Heron** (new importation)—Large corolla of blue purple streaked and flushed carmine, broad scarlet sepals with deep crimson on reverse side.
- Istar** (new importation) — Medium sized flower of dark purple with scarlet sepals.
- Karl Blanc (Black Prince)** — Broad single petals opening wide of deep pink color, clear pink sepals.
- Kate Hayes**—
- Lady Heytesbury** (new importation)
- La Perle**—
- L'Enfante Prodigue**—Small flowered violet purple.
- Little Beauty**—Dwarf compact bush, very free flowering with lavender blue corolla changing to rosy lavender. Deep pink sepals.
- Longipendunculata** (new importation) — Very long thin flowers with violet purple corolla and light scarlet sepals.
- Lord Byron**—Medium sized flower with deep velvety purple corolla shading to carmine base. Bright scarlet sepals. Short tube.
- Lustre Improved** (new importation)—Bright orange red corolla with creamy white tube and sepals.
- Madame Thibaud**—Long pointed bud opening to large cup-shaped corolla of bright violet rose. Long narrow deep rose sepals. Distinct.
- Madam Vander Strass**—
- Marie Juillard**—Clear pink corolla, green tipped sepals of light pink shaded lighter at base.
- Marinka** (new importation)—Salmon shade, almost self color.
- Masterpiece** (new importation)—Corolla light fuchsia red, reflexed scarlet sepals.
- Minos**—Small flowered dark purple.
- Minnesota**—Deep purple shading to carmine to white base of petals, green tipped white sepals delicately overlaid with rose.
- Miss Joan Haddock** (new importation)—Large mauve purple corolla with bright red sepals.
- Mme. Eva Boeg**—Violet corolla marked with rose, green tipped sepals of bright carmine-rose.
-

Monterey—Bright orange pink short corolla, narrow and sharply pointed sepals of soft pink delicately shaded orange.

Morning Mist—Orange red lightly shaded purple. Long tube and sepals of soft orange pink.

Mrs. Josephine Frankenfield—Small flowered white.

Mr. Snyder—Self colored flower of medium size with corolla and sepals of vermillion red. Tube of deeper shade.

Mrs. Marshall (new importation)—Red corolla and long white sepals.

Mrs. Rundle (new importation)—Very long tube and sepals of flesh color, corolla vivid orange.

Pink Pearl (new importation)—

Prince Charming—Rosy mauve changing to deep pink, loosely arranged long petals. Medium deep pink tube streaked lighter shade with large long pointed bright deep pink or scarlet sepals. Distinct.

Prince of May (new importation)—Small flowers, scarlet corolla with reflexed pale pink sepals.

Pumila (new importation)—Dwarf compact plant with tiny mauve flowers and scarlet sepals. Very fine.

Rhombifolium—

Ronsard—Violet baby fuchsia.

Rose of Castile—Small short corolla of lavender color flushed rose and shaded lighter at base of petals. Tube and sepals of delicate rose color.

Rose of Denmark (new importation)—Corolla pale rose shading to deeper at edge of petals, reflexed light sepals.

Santa Barbara—

Sensation—Long thin pointed bud opening to blue purple corolla shaded carmine mauve at base. Long pointed reflexed sepals of bright scarlet.

Schneewitschen (probably same as Countess of Aberdeen)

Starlight (new importation)—Deep rose pink corolla shading from white base, creamy white tube and sepals.

Sunray (new importation)—Ornamental variegated foliage, silvery white and green. Flowers rosy salmon.

Swanley Gem—Dark mauve purple shaded to carmine base, very long narrow pointed sepals of bright scarlet.

Swanley Yellow—Extra long tube and sepals, light flushed pink and orange, corolla deep orange pink.

Telegraph—Purple small flowered.

The Doctor (new importation)—Deen pink to brick red corolla with long pointed sepals of self pink, tipped green.

Trailing Queen (new importation)—Trailing habit, light red tube and sepals, fuchsia red corolla.

Triumph of Frankford—Rose pink corolla, long pointed sepals of delicate pink shaded carmine pink at tip, medium long tube delicately tinted pink.

Venus Victrix (new importation) — Dwarf, corolla deep violet with white sepals. Small flower. Distinct.

Villa Hebe — Light rose suffused lilac. Tube waxy white, long pointed white sepals delicately tinted pink.

Wave of Life (new importation) — Golden yellow leaves, purple corolla with scarlet sepals.

W. F. Ewing —

White Beauty — Single white petals veined scarlet at base opening flat to saucer-shaped. Scarlet sepals reflexed back against the short tube. A fine variety.

TRIPHYLLA HYBRIDS

Christmas Gem (Rottengen) — Long thin vermillion red tube with short orange red corolla. Bronze red leaves with velvety sheen. Terminal flower clusters.

Coraile — Large clusters of rich orange flowers. Blue green foliage.

Gartenmeister Bonstedt — Flowers glowing brick red with dark bronze red foliage.

H. A. Greene — Clusters of long thin flowers of carmine red tube and sepals, corolla vermillion red.

Mary — Long brilliant scarlet flowers, narrow dark blue green leaves.

Souvenir de Henry Henkel (Andenken An Heinrich Henkel) — Long tube and sepals of deep pink, short orange pink corolla. A fine variety.

T. Bonstedt — Clusters of pale salmon pink flowers.

Thalia — Bronze green foliage and long brick red flowers.

DOUBLE FLOWERED FUCHSIAS

- Andre Le Notre**—Extra large flower of prune blue corolla changing to carmine flush, broad spreading petals. Broad scarlet sepals. A fine double.
- Avalanche**—Short corolla of rich purple shaded carmine at base. Scarlet sepals. Leaves flushed yellow and bronze.
- Baron Von Ketteler**—A giant flowered with deep rich purple and scarlet sepals.
- Beauty of Exmouth**—Rich lavender blue corolla streaked and flushed carmine. Scarlet sepals.
- Beranger**—Deep blue purple corolla suffused carmine. Bright scarlet sepals.
- Berliner Kind**—Large double white with carmine base deep clear pink sepals.
- Carmen**—Double violet corolla with scarlet sepals. Small flowers.
- Diament**—Large white with loosely arranged petals, streaked carmine. Scarlet sepals.
- Dollar Princess**—Short full double corolla purple shaded rose at base changing to rosy purple. Scarlet sepals.
- Dr. Behring**—Blue purple corolla with rosy flush. Broad scarlet sepals.
- Flocon de Neige** (new importation)—Corolla white, sepals bright red.
- General D'Amade**—One row of broad large white petals heavily veined carmine with second row of smaller petals similarly marked. Scarlet sepals. Name questionable.
- General Roberts** (Phenomenal) — Large rich plum purple corolla streaked carmine at base. Reflexed scarlet sepals.
- Gerbert**—Outer row petals bright scarlet streaked and splashed deep purple, inner rows all deep purple, bright scarlet sepals.
- Gloire de Marchii**—Medium size white with carmine veins, scarlet sepals. Foliage crinkled.
- G. Portesi**—Violet blue corolla with scarlet veins, scarlet sepals.
- Haphazard**—Rich deep purple with fine white line around edge of each petal, scarlet sepals.
- Hazards Seedling 61**—Long corolla with large broad petals of deep rose lightly suffused violet. Long pointed reflexed sepals of light rose. Tube white shaded pink.
- Irwins Giant Pink**—Compact bushy plant with full corolla of soft rose petals streaked and flushed deeper. Deep pink sepals. A fine variety.
- Jules Daloges** (new importation)—Corolla rich violet tinted red, large very double, reflexed scarlet sepals.
- Julius Lejeune**—
- Lavender Beauty**—Beautiful lilac suffused rose, veins carmine. Broad deep pink sepals.
- Le Robuste**—Violet blue veined with dark rose, scarlet sepals.
- Marvel** (new importation) — Mauve purple corolla medium short, scarlet sepals.
-

Mauve Beauty (new importation) — Full flowers of mauve pink with deep pink sepals.

Miss B. Hesse (new importation)—White veined rose, carmine sepals.

Molesworth—Full double white corolla, sepals red.

Monsieur Morliere—Large violet purple with deep red sepals.

Mme. Cornelissen (new importation) — Semi-double white long corolla, scarlet sepals.

Mrs. E. G. Hill—White petals veined and flushed carmine. Deep pink sepals partly reflexed.

Mrs. Gladstone—Large double white veined crimson, bright clear pink sepals. One of the best.

Nonpareil—Semi-double deep rosy mauve with large broad petals. Light tube and light sepals shaded deeper toward tip.

Pasteur—Large double white with reflexed deep pink sepals.

Pax—

Phenomenal (See General Roberts)

Pink Ballet Girl—Enormous blue pink corolla with carmine sepals.

Pride of Exeter (Beauty of Exeter)—Rosy mauve corolla with outer petals splashed and edged with deep pink. Sepals long pointed rose pink tipped green.

Pride of Orion (Pride of Oxford)—Large loosely arranged white petals, veined and splashed crimson and scarlet, long pointed reflexed sepals of brilliant scarlet. One of the finest double white Fuchsias.

Purple Gem—Royal purple splashed with crimson, crimson sepals.

Pythagore—Deep violet purple with rose shading, opening flat with broad scarlet sepals

Renault Morliere—Deep prune purple of large size with rose sepals.

Rolla (new importation)—White corolla with white sepals suffused pale pink. Distinct.

Rose Phenomenal—Very large flowers, very full corolla of violet lavender suffused rose and veined crimson. Broad deep crimson sepals. A fine variety.

Royal Purple (new importation)—Corolla intense vivid purple, tube and sepals scarlet.

Storm King—Elongated and inflated bud of bright scarlet tube and sepals corolla double waxy white with crimson veins at base of petals.

Sylvia—Semi double with white petals, veined and flushed carmine, deep pink sepals.

Tenor—

Torpilleur—Loose white petals flushed carmine with red sepals.
